## MT-4210A

Ergonomic and Versatile Mobile POS

**The MT-4210A** is an Android version of mobile POS that provides businesses with the mobility of a tablet and the functionality of a fixed POS terminal. It is a 10" tablet supporting MSR/RFID attachment, pistol grip with built-in 1D or 2D barcode scanner, 2nd removable battery and an optional dock station to transform the device into a full-fledged, stationary POS.

### Built for Business Mobility

Running on Intel Cherry Trail processor, the MT-4210A is an Android based tablet, designed to meet business applications and requirements. It features a very durable construction and survives up to 1.5 meters drop.

### Patented Technology (U.S. Patent 9436226 B2)

The MT-4210A can be fitted with the pistol grip that has an optional barcode scanner, and converts into a data collector. This ergonomically designed pistol grip shape handle was purpose-built for easy carrying. Additionally, it houses a removable battery to vastly extend the overall operating time.

### Multi-use Versatility

With the pistol grip, the MT-4210A can be used for inventory, line busting or ticket taking. The tablet hand strap is ideal for service on the go. An encryption-capable magnetic stripe reader optimizes the tablet's usability in loyalty program.

### Get Even More With A Dock Station

The optional dock station for the MT-4210A integrates a wireless 3" thermal printer and full suite of connectivity options. When the tablet is integrated with its dock station, an all-in-one POS is instantly at your disposal.
